Rails Producer

```
class RailsProducer
  def create
    Rails::Application.new.create
  end

  def create_with_options(options)
    Rails::Application.new.create_with_options(options)
  end

  def create_with_options_and_logger(logger)
    Rails::Application.new.create_with_options_and_logger(logger)
  end
end
```

```
RailsProducer.new.create_with_options_and_logger($stdout, $stderr, "rails_producer")
```

Centrée sur la communauté

Débutants & girls friendly

Super ambiance :)

Ruby Nord & ParisRb ++
sur la piste de dance jusque 3h du
mat'

Merci Cécile ;)

LES CONFS

(tout à été filmé, à (re)voir bientôt)

Matz - Keynote

Ruby 3

I don't know - 2020 ?

Ruby3x3

Xavier Noria - Little Snippets

Plein de snippets de quelques lignes qui peuvent être plus expressives

Always code as if the guy who ends up maintaining your code will be a violent psychopath who knows where you live.

Document the whys in code comments

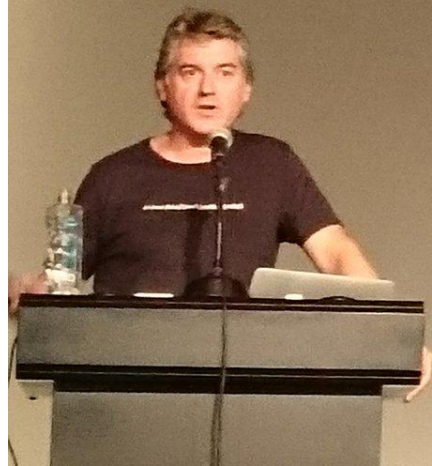

RUBY_PLATFORM =~ /java/

VS

/java/.match?(RUBY_PLATFORM)

VS

RUBY_PLATFORM.include?('java')

Andrew Radev - Rules, Laws, and Gentle Guidelines

Law of Demeter

Single Responsibility Principle

It's easier to ask forgiveness than it is to get permission

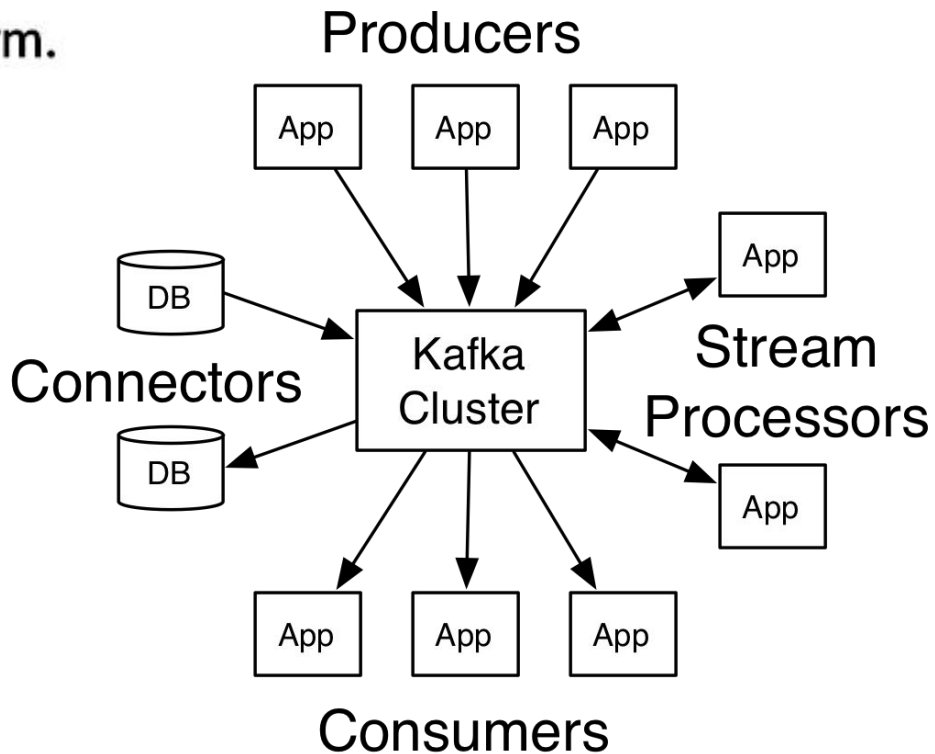

Don't push force to master at 3' in the morning

Terence Lee - Simplifying Logs, Events, and Streams: Kafka + Rails

Présentation d'Apache Kafka

Distributed streaming platform

Pub/sub - Store - Process

Marc-André Giroux - GraphQL on Rails

Un langage pour votre API

Se branche sur n'importe quoi

Réponds à la problématique de "j'ai X representations / versions de mon objet sur mon API"

Doc, typage, ...

Describe your data

```
type Project {  
  name: String  
  tagline: String  
  contributors: [User]  
}
```

Ask for what you want

```
{  
  project(name: "GraphQL") {  
    tagline  
  }  
}
```

Get predictable results

```
{  
  "project": {  
    "tagline": "A query language for APIs"  
  }  
}
```

Hanami (ex Lotus)

ZZzz :D

Ivan Nemytchenko - What I Have Learned from Organizing Remote Internship for Ruby developers

Comment organiser des formations à grande échelle

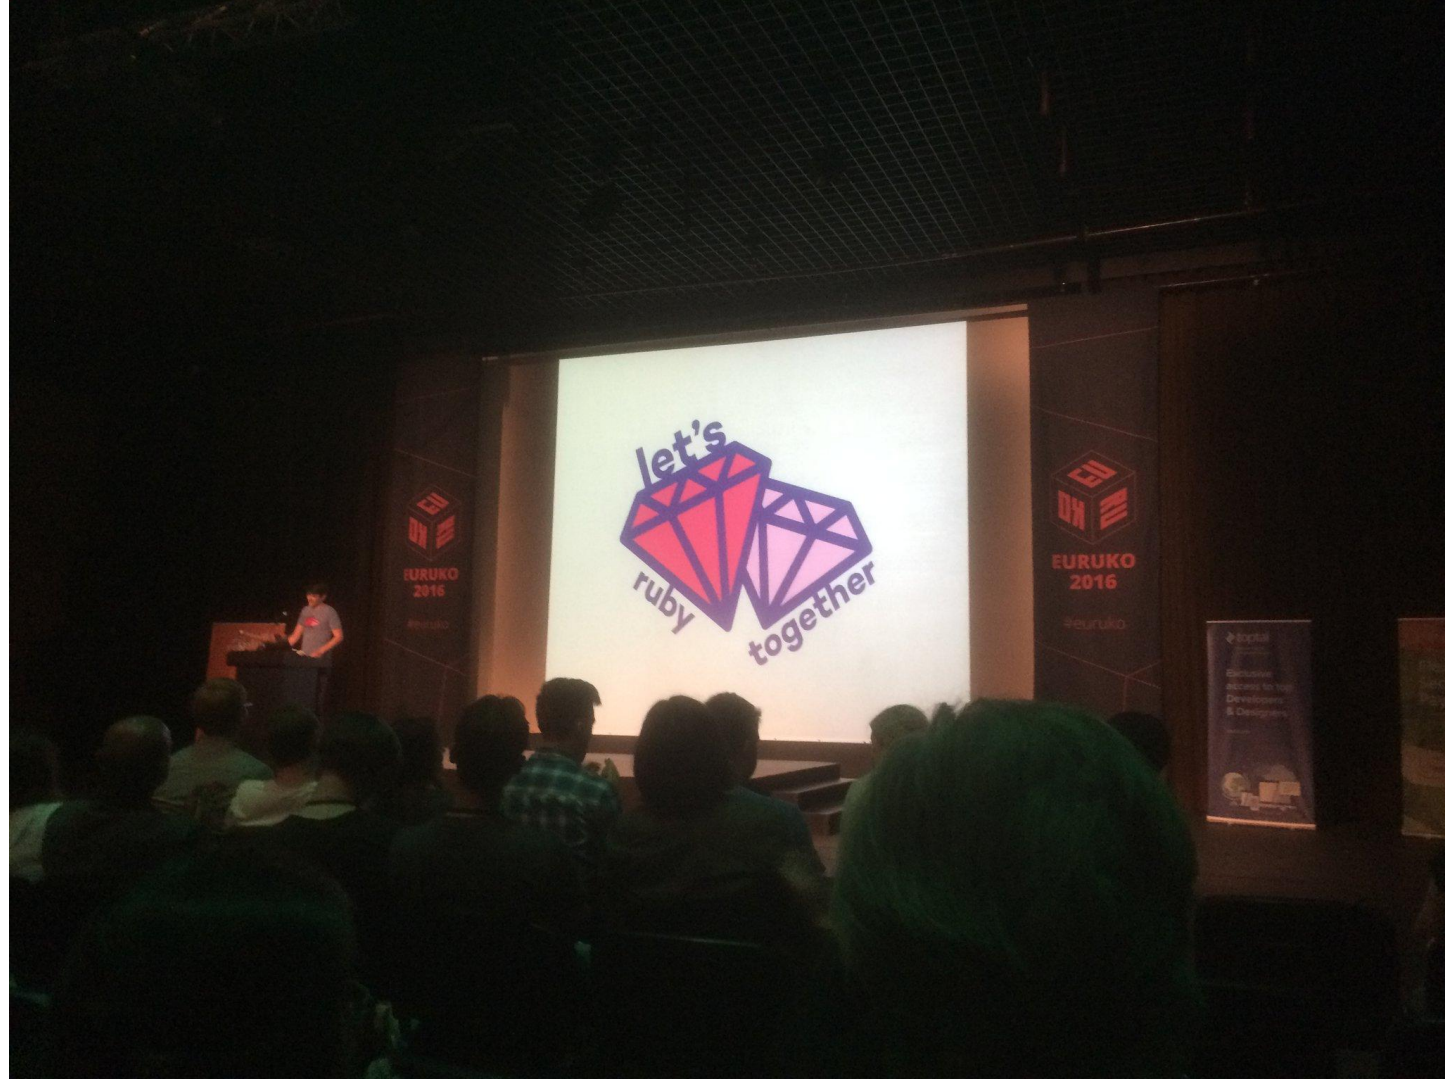

Discutable o_O

André Arko - A Year of Ruby, Together

Hack de rubygems de 2013 :-/

Une initiative pour soutenir / financer l'infra et les outils
Ruby (rubygems, bundler, ...)

Participez ! :)

ruby together

Community funded developer infrastructure

Ruby Together is a grassroots initiative committed to supporting the critical Ruby infrastructure you rely on: Bundler, RubyGems, and other shared tools.

Join companies like **Stripe**, **Bleacher Report**, **Stitch Fix**, **DigitalOcean**, and **GitLab**; individuals like **James Turnbull**, **Cecile Veneziani**, and **Simon Starr**; plus **many others** supporting the Ruby ecosystem.

Our goal

- Your financial backing allows Ruby Together to pay expert, professional developers to work on improving **critical infrastructure projects**.
- The Ruby Together **board of directors**, elected by members, selects the most impactful projects to fund.
- Ruby Together publishes **monthly updates** showing progress and our proven results.

Nick Sutterer - The Illusion of Stable APIs

Trailblazer

Sortir du Rails Way

Moins de MVC, plus d'OOP

P'tit rigolo ;)

Lightnings

Un peu de tout :)
